# INSTRUCTIONS FOR COLOR WHEEL

Installation Notes:

1. Lay the lens flat, with the raised edge facing upwards, use clips to fasten the gap between the edges of the two lenses, and assemble the 4 lenses into a circle.
   Note: The width of the clip can be adjusted manually so that the clip can just fit into the gap of the lens.

2. Attach the cross bracket convex facing outward to the threaded motor shaft.

3. Align the convex surface of the assembled lens with the convex surface of the cross bracket, and fasten them together.

4. Snap the round washer onto the smooth side of the lens with the raised side facing out.

5. Finally, attach everything to the end of the motor shaft with a wing nut, turning the nut clockwise until tight.

Hint 1

Check whether the motor can be tightened to stay in place without slipping when the angle of use is fixed. If not, please rotate the knobs on the left and right sides of the motor housing at the same time until it is fixed.
Note: When rotating and fixing, the knobs on both sides need to be rotated in different directions.

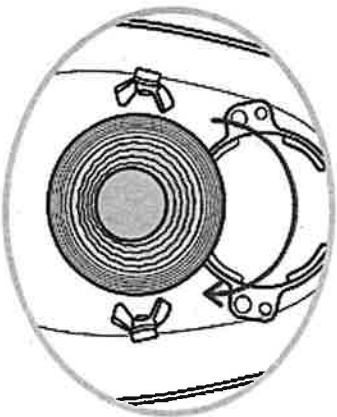

Hint 2

Check if the threaded motor shaft is loose, if it is loose, turn the motor shaft clockwise until it is tightened.
Note: One end of the short thread of the motor shaft is connected to the motor, and the other end of the long thread is connected to the lens and other parts.

Connect the lens

Connect the motor

Check whether the bulb is fixed before installation, if it is loose, please remove the bulb, align with the hole, and turn the bulb clockwise until it is tightened.
Note: The product comes with a light bulb, the parameters are 120V, 9W.

WARN:

1. The product is a live product and can only be used indoors.
2. The bulb will become hot under long-term use, and the working temperature is 104 degrees Fahrenheit, please do not touch it directly.
3. To prevent accidents, please do not operate the color wheel unattended for a long time, and keep children away from the color wheel when using it.
4. The product has a better dyeing effect only when it is matched with a silver Christmas tree.
